

**1. What do you usually do in your free time?**

In my free time, I enjoy reading books, especially fiction, and listening to music. Sometimes I also go for a walk in the park or meet my friends for a coffee.

**2. Do you prefer studying alone or with other people? Why?**

I usually prefer studying alone because I can concentrate better and go at my own pace. However, sometimes it's helpful to study with friends to exchange ideas and test each other.

**3. Describe a place you enjoy visiting.**

One of my favourite places is a small lake near my grandparents' house. It's very quiet and peaceful, and I often go there to relax or take photos of nature.

**4. Write an email to your English friend about your weekend.**

*Hi Alex,*

Hope you're doing well! I just wanted to tell you about my weekend. On Saturday, I went to the cinema with my cousin – we watched a new action movie and it was amazing! On Sunday, I stayed home and finished a book I've been reading for a while. It was a relaxing weekend overall.

*What about you? Did you do anything fun?*

*Take care,*

*Dani*

**5. What kind of music do you like?**

I enjoy different types of music, but my favourite is pop. I also like some rock songs, especially when I'm working out. Music helps me relax and focus.

**6. Tell us about a film you saw recently.**

Last week I watched a comedy called "The Intern". It was really funny but also had a great message about friendship and work. I'd definitely recommend it.
